WebDevOps Documentation Documentation

Release

Florian Tatzel

November 21, 2016

1 Introduction **3**
1.1 What is the Vagrant Docker VM for? . . . 3

2 Getting Started **5**
2.1 Requirements . . . 5
2.2 Installation . . . 5
2.3 Usage . . . 5

3 Usage **7**
3.1 Configurations and Data sheets . . . 7
3.2 File Sharing . . . 7
3.3 Integrated Mailserver . . . 7

4 Project Structure **9**
4.1 The Vagrantfile Configuration . . . 9
4.2 Configuring the vm.yml . . . 9
4.3 Provisioning . . . 9
4.3.1 Ansible Roles . . . 9
4.4 Ansible Roles Configuration . . . 9

5 How to Contribute **11**
5.1 Contributing Code . . . 11
5.2 Contribute Documentation . . . 11

This are the Documentation pages for the WebDevOps Vagrant Docker VM.
This Vagrant VM will provide you an easy solution for virtualized development with Docker.
Please keep in mind that this documentation is still work in progress.

CHAPTER 1

Introduction

Introduction Content

1.1 What is the Vagrant Docker VM for?

This section is not done yet!

CHAPTER 2

Getting Started

2.1 Requirements

This section is not done yet!

2.2 Installation

This section is not done yet!

2.3 Usage

This section is not done yet!

CHAPTER 3

Usage

This section is not done yet!

3.1 Configurations and Data sheets

This section is not done yet!

3.2 File Sharing

This section is not done yet!

3.3 Integrated Mailserver

This section is not done yet!

CHAPTER 4

Project Structure

This section is not done yet!

4.1 The Vagrantfile Configuration

This section is not done yet!

4.2 Configuring the vm.yml

This section is not done yet!

4.3 Provisioning

This section is not done yet!

4.3.1 Ansible Roles

This section is not done yet!

4.4 Ansible Roles Configuration

This section is not done yet!

CHAPTER 5

How to Contribute

This section is not done yet!

5.1 Contributing Code

How to contribute Code

5.2 Contribute Documentation
