<b>3</b>	<b>Usage</b>	<b>7</b>
3.1	Docker Compose Configuration . . . . .	7
3.2	Altering Docker Images . . . . .	7
3.3	Synergy with Vagrant Docker VM . . . . .	7
<b>4</b>	<b>Project Structure</b>	<b>9</b>
4.1	Dockerfiles . . . . .	9
4.2	Docker Compose Setup . . . . .	9
4.3	Scripts and Provisioning . . . . .	9
4.4	Ansible Roles Configuration . . . . .	9
<b>5</b>	<b>How to Contribute</b>	<b>11</b>
5.1	Contributing Code . . . . .	11
5.2	Contribute Documentation . . . . .	11

Welcome to the documentation pages for the WebDevOps PHP Docker Boilerplate.

Here you will find informations about the usage of the PHP Docker Boilerplate, as well as informations about the components we used to compose it.

This documentation is work in progress and we appreciate every help we can get, so feel free to contribute.

# CHAPTER 1

---

## Introduction
